## Executive Summary

LEARN has been conducting teacher training program in rural community schools since its establishment in 2014. It has already completed the II phase trainings in 7 schools of Mukti Marga Higher Secondary School Resource Center, Ghara, Myagdi and 10 schools of Adarsh Secondary School Resource Center, Rima, Myagdi. REED Nepal, an NGO delivered such training in 7 schools of Shikha VDC of Ghara Resource Center from 2011 to 2013. LEARN is continuing the refresher training and teaching learning materials supplies to that cluster of schools. District Education Office and related Resource Centers are cooperative in our program.

Looking at the effectiveness of classroom management, learning environment of schools attracted the attention of other Resource Centers and schools. District Education Officials and Resource Persons visited to those intervening schools and left the good impression. Some RPs requested LEARN to extend the training program in their areas too. Considering their interest LEARN approached to make a baseline survey in 14 schools of Shree Sarwodaya Higher Secondary School Resource Center, Bhurung Tatopani, Myagdi.

This survey records the current situation of the schools in this resource center. Survey forms, interaction with the teachers, observation of the learning environment of the classrooms, basic physical facilities of schools were the tools of the survey program.

## Back ground of the survey site

The survey site is located to the Northern belt of Myagdi district. It covers four village development committees. Doba VDC having 2 schools one secondary school and another primary school is situated in the South East of the resource center. Bhurung Tatopani VDC is the VDC where the resource center is located. It consists 2 schools, one higher secondary school and another primary school. Narchyang VDC having 5 schools is located in the North East. It covers one secondary, one lower secondary and three primary schools. Dana VDC covers 5 schools, one higher secondary, four primary schools. It is located in the North of the resource center.

This resource center is 25km from Beni but takes at least 2.5hrs by public bus. 50% schools are connected with newly constructed dusty and muddy road but road is narrow, rough, and risky. Rest of the schools are out of road connection and are half hour to 4 hours of walking distance from the resource center.

## Objectives

1. To find teachers and students current data
2. To find teaching learning environment in the targeted schools
3. To interact with the teachers and collect the needs
4. To find the physical condition and facilities of the schools

## Survey Activities

Data collection :(see annex)

- Number of students gender wise, school wise
- Number of teachers gender wise, level wise, trained, untrained, qualification
- Latest Learning achievement of students school and grade wise
- Physical condition of schools

Interaction with teachers:

The survey team made face to face interaction with every present school teachers and head teachers and some SMC members concerning LEARN's activities and its objectives in teaching learning activities, challenges in teaching , their expectations, rural economy and its impact of students' retention.

### Methodology

The survey was made by using related tools like;

- Data collection forms
- School and classroom observation
- Face to face interaction with teachers

### Recommendation and expectations of teachers

LEARN found the following expectations from the teachers for training program

- Teaching learning material preparation
- Class room management
- Teaching skills using art/drawing/ music/games/audio visual materials
- Learning style of students
- Case study(Action research)
- Way of maintaining the knowledge label in learning group in grade
- Behavior management and child psychology
- Improvement in English Education
- CAS implementation
- Subject specific training for teachers

### Challenges

LEARN realizes the following challenges in running the program

- Trainings to be organized in the holiday time of teachers
- Expensive accommodation for the teachers as according to LEARN's limited norms
- Supply of expensive electronic materials

After visiting each school in the target resource center, teachers are interested to involve, learn and share ideas with the peer group of teachers. They are worried with the decreasing number of students. Very few learning materials are seen and displayed in the class room. Most of the teachers are based on a single text book rather than curriculum and other reference books, materials and methods. Furniture is available but not child friendly.

### Survey Team:

1. Krishna Bahadur Tilija Pun-CEO,LEARN

2. Jaya Ram Subedi-RP, DEO Myagdi
